

Ajeet Kumar

JAVA Full Stack Developer

Delhi, India • +917858826448 • [Email](#) • [LinkedIn](#) • [Github](#) • [Portfolio](#)

Valuable Software engineer 1.5 years of experience in designing, developing and delivering user-centric web applications using **Java/J2EE** technologies; Offering strong expertise in multiple technologies like **Spring Boot**, **Microservices**, **Hibernate**, **ReactJS**, **Redux**, etc; Seeking to secure a challenging position as a software developer

WORK EXPERIENCE

Associate Engineer

July 2022 – Present

Nagarro, Haryana, India

- Developed REST API's and implemented **payment gateway system using Spring Boot**.
- Developed scalable and optimized UI component for a web application using **reactJS and Redux** and implemented **Server side rendering**, ensuring **fast loading time and responsive design**.
- Coded Solutions and unit test with **Junit** to deliver requirements/stories per defined acceptance criteria and compliance requirements.
- Design components, templates, dialog, using the **AEM architecture (Sling,Servlet, CRX, OSGI, JCR)**
- Researched and evaluated methods and techniques in development lifecycle, documenting and present reports to leadership 2 times a months.

Associate Engineer Intern

January 2022 – Jun 2022

Nagarro, Haryana, India

- Analyzed and maintained existing software applications.
- Learned developed and implemented **microservices** with **spring boot framework**.
- Designed responsive single-page web applications with **ReactJS** and **Redux**.
- Used 80% relational databases, 20% **NO-SQL** databases and ORM tools like **Hibernate**

PERSONAL PROJECTS

Skype Clone:- [GitHub link](#) | [Hosting Link](#)

- Design and developed responsive user interfaces using **html**, **Tailwind css** and **MaterialUI**
- Conducted testing using **jest and React Testing Library (RTL)**
- **Content authoring** of whole web applications on **AEM-Author Cloud Service**
- Hosted the project on **Netlify** and provide a deployment Link for live access.

Product Catalog Website

- Created Backend which exposes **RESTful webservices** using **Spring Boot** i.e. user **authentication**, **authorization**, search functionality, product details, get price and Get Serviceability API.
- Design and developed responsive UI using **reactJS**, **Redux-toolkit**, **MaterialUI**
- Conducted testing using **jest**, **Junit**, **Mockito** and **React Testing Library (RTL)**

EDUCATION

Centre for Development of Advance Computing, Noida Uttar Pradesh, India

Master of Computer Application – Computer Science

Aug 2020 – July 2022

8.7 CGPA - A Grade

SKILLS & OTHER

Programming Languages: Java Full-Stack, Javascript, Typescript, **HTML5**, **Tailwind CSS**,

Tools and Frameworks: Spring Boot, Hibernate, MicroServices, MultiThreading, Data structures, REST, React.js, Redux, Databases, Mysql Junit, jest, Mockito, React Testing Library(RTL)

Familiar with:- Jira, NextJS, Git, AEM,

Certificates:- [Spring Boot&Hibernate](#)
